**SUMMARY:** The neck bone is connected to the back bone, and the shoulder bone is connected to the arm bone. You know that much—but to efficiently, elegantly and effectively handle a back or knee injury case (by far the largest category of personal injury, worker's compensation and disability claims), or a shoulder injury case (accounting for the most time lost from work), you need enhanced knowledge and skills.

Sam Hodge is your most effective guide to achieving them. In plain English, and with a sharp focus on the challenges you face in your law practice, speaker Sam Hodge covers handling back, shoulder, hand and knee injury cases. He makes practical, case-clarifying sense of complicated medical injuries, terms and conditions. He provides the essential tools that you need to properly evaluate and articulate your case to make it persuasive to 1) your client, 2) opposing counsel 3) the judge and, if need be, 4) the jury.

The North Carolina Bar Association Foundation is accredited by the North Carolina State Bar as a provider of continuing legal education.
