Legislative Bulletin

A Summary of New Laws Affecting North Carolina Lawyers

Prepared by the Governmental Affairs Team
North Carolina Bar Association
Volume 36, Issue 2 • December 2019
The Legislative Bulletin is provided as a service of the NCBA Government Affairs Team. Included is a summary of bills passed since the first issue of the Legislative Bulletin, September 17, 2019, through November 18, 2019. These bills either were tracked by a section or committee of the NCBA or that was independently tracked by the Government Affairs Team during the 2019 session of the General Assembly. These summaries are designed to put you on notice of changes made in the statutes this session which may affect your practice. They are not intended to instruct you fully as to those changes; there is no substitute for reading the Session Laws themselves. Our purpose is to offer a tool to assist in your practice and we hope you will find that this publication serves your purpose. The Office of Governmental Affairs plans to produce an additional publication after January’s special session.

In the event of a disaster, the legislation allows counties and municipalities to contract with prequalified contractors for the repair, rehabilitation, or construction of private residential structures funded by State or federal funds without having to follow procedures contained in G.S. 143-135.8 for prequalifying contractors.

The act requires homeowners in the 100-year floodplain receiving homeowner’s housing assistance to have federal flood insurance as a precondition to the State homeowner’s housing assistance for losses resulting from flooding, assuming the federal flood insurance is available, and makes modifications to the flood insurance pilot program.

Additionally, a sub-section is added to G.S. 120-29.5 requiring State agencies submitting reports to the General Assembly to publish the report on the State agency’s Website.
